What AI can help with

Writing + Communication

- Client email and enquiry replies
- Social captions (you adjust the voice)
- Bio and About page information
- Sevice descriptions
- Welcome and onboarding emails
- Payment reminder workding
- Proposals and packages explained simply

Planning + Mapping

- Sounding board for decisions
- Naming an offer or program
- Sorting a messy idea into something clear
- Figuring out what to include in a package
- Talking through pricing logic (not the number)
- Getting unstuck when you're going in cirlces

Content + Socials

- Post ideas from a theme or pillar
- Turning a brain dump into something clear
- Rewriting a darft that doesn't feel right
- Building a simple content plan
- Creating a FAQ list for your services
- Captions across multiple formats at one

Admin + Setup

- Email templates and intake form questions
- Basic privacy or terms wording
- Checklists and repeatable processes
- Researching tools without trawling ten tabs
- Plain-English explanations (tax, legal, tech)
- How-to guidance without aYoutube rabbit hole

Now do something with it

Choose one thing from the above that you want to try this week. Write it here sos it's real.
