

Akashic Records Practitioner Training - Structure

Working title - naming options at the bottom.

Who it's for

Open entry - no prerequisite. Anyone drawn to the Akashic Records can join.

Format

Cohort program - a group container with a set start date, like Into the Dark.

Locked in 2026-07-03: small cohort intake (4-6 students), 7 live sessions totalling roughly 10-13.25 hours. Phase 3 and Phase 5 are each split into two sessions so the supervised healing practice and the graduation close each get proper room.

Certification pathway

Practitioner certification, with IICT insurance eligibility as the goal.

From IICT's Training Provider Application Guide:

- **No fixed hour minimum** - IICT doesn't set a number.
- **Trainer prerequisite:** 3-5 years practising the modality.
- **Insurance:** current public liability and professional indemnity cover, held.
- **Training manual required.**
- **Application needs:** curriculum outline, training manual, sample graduate certificate, business registration proof, insurance certificate, refund policy, complaint/grievance policy, two reference letters, completed modality application form.
- **Timeline:** roughly 12 weeks once the application reaches the front of the queue - submit early.
- **Fees:** \$350 non-refundable application fee, plus an annual plan fee (\$328.90 for 2 modalities, \$548.90 for 5).

Program Structure - 7 Sessions, ~10-13.25 Hours

Phase 1 - Opening the Field

1 session · 90-120 min · Foundations, Safety

- What the Akashic Records are (in your own words)
- Energetic hygiene and protection
- Permission-based access, consent, boundaries
- Opening and closing the records safely
- Practice: opening your own record, closing cleanly

Phase 2 - Reading the Records

1 session · 90-120 min · Skill building

- Structure of a reading
- Interpreting symbols, patterns, soul contracts, karmic threads
- Trusting what comes through vs. second-guessing
- Practice: reading for a peer, receiving a reading, group debrief

Phase 3 - Healing in the Records

2 sessions · ~3.3-4.3 hrs total · Deepening

Split into two sessions - this is the highest-stakes supervised phase.

- **3a (110-140 min):** healing modalities - cord cutting, contract rewriting, ancestral and past-life threads; reading and healing across life areas (relationships, work, health, money, family/ancestry, purpose); holding the container (the Emperor skill), taught explicitly
- **3b (90-120 min):** live demonstration first, then supervised peer practice with real circulation and attention, then debrief

Phase 4 - Practitioner Readiness

1 session · 90-120 min · Business + ethics

- Session structure - running a paid reading or healing start to finish
- Ethics, scope of practice, what to refer out
- Pricing and positioning their own offer
- Insurance and IICT requirements walkthrough - practitioner-level certification only; teaching isn't part of what this training gives graduates

Phase 5 - Certification Practicum

2 sessions · ~2.25-2.9 hrs total · Assessment

Split so graduation gets its own unhurried close.

- **5a (90-115 min):** supervised practice readings/healings in peer pods, case notes, an ethics scenario response
- **5b (45-60 min):** graduation - certificate issued, cohort closes as a container

Delivery notes

- Live sessions online
- Telegram or similar between-session access
- Recorded sessions available after, so nothing is lost if someone misses a live

Naming - a few directions

- **Opening the Records**
- **The Living Archive**
- **Keeper Training**

What's next when you're ready

Structure, hours, training manual, and all 7 session guides are done (built 2026-07-03). What's left: (1) pick a name, (2) submit the IICT application given the ~12 week queue, (3) build the enrolment/intake form, sales page, one-pager, cohort tracker, and sample graduate certificate, (4) set launch date and pricing, then wire up payment links.
